

DARKBUSTER LED-12

- A. Lantern grip is the diver's favorite way to use.
- B. CREE high quality light offers powerful white light at 700lm
- C. Rubber overmold can protect the cover while hitting the hard object.
- D. Charging screw can be removed by a coin.
- E. Power switch on/off.

Features

1. World's 1st ATEX certified, IP68 rated(100M underwater) & rechargeable lantern made in Taiwan
2. The brightest and lightest torch at just 1,000g dry and 700 lumens in its class.
3. Both focused spot beam and uniform flood beam with an included glass diffuser available

Design Concept	Pursuing best performance out of all component combination & highest cost performance ratio	
Luminous Efficacy	58 lm/W	<ol style="list-style-type: none"> 1. More light output with more power consumption is not energy saving at all. 2. More power consumption is also very likely to result in heat problem and luminous

		<p>decay.</p> <p>3. How many lm/W is the one you must look at instead of watts or lumens individually.</p>
LED Source	CREE, global leading LED manufacturer in USA	<p>1. LED from unknown sources may infringe patent issues.</p> <p>2. One CREE LED outperforms 50 or even 100 pieces from 2nd and 3rd-tier suppliers.</p>
LED Qty.	1 piece	<p>1. More LED pieces do not mean more light output at all.</p> <p>2. The reflector is not able to work with multi-LED mechanism and make beam more diffused. Beam distance becomes unsatisfactory as a result.</p>
Rechargeable Battery Type	Lithium-ion	<p>1. Environment-friendly</p> <p>2. No memory effect</p>
Battery Safety	<p>1. Protection board</p> <p>2. Japan PSE(circle) compliant</p>	<p>To ensure:</p> <p>1. won't blow up or catch fire when being used, charged.</p> <p>2. compliant with UN manual 38.3 required by IATA for transportation safety</p>
IP & Depth Rating	<p>1. IP68 means top protection against both solid objects and liquids.</p> <p>2. 100M underwater sustainable indicates the enclosure is able to stand pressure of 10kg/cm²</p>	Ready for heavy-duty uses

Waterproof QC	100% before delivery	To guarantee no flooded lights
Product approvals	CE, FCC, C-TICK, EX, PSE, IP68, ROHS	Making a safe torch to use in hazardous atmospheres and challenging conditions is fundamental to us. That's why BRIGHTSTAR lights are the safest on the market.
Product Liability Insurance	YES	

Specifications

Bulb Type: CREE one-piece LED 12W

Bulb Lifetime: 50,000hrs

Light Output: 700Lm

Battery Type: Japan PSE approved rechargeable lithium-ion

Run Time: 5.2A: around 360 mins/ 2.2A: around 145 mins

Dimensions: Ø7.8cm*L20.5cm

Weight: 5.2A: 1000g/ 2.2A: 730g

Ingress Protection: IP68

Depth Rating: 300ft/100m

Accessories

	Handle Bar (Pistol or Lantern with Carrying Cord)	2B0500049-01 (Lantern + lanyard) 2B0500049-02 (Pistol + lanyard)
	Camera Housing (YS) Adaptor	2B0400110
	O-RING	2B1700102
	Arm Mount	2B0500058
	Adapter Set (for LED series light)	3B9003011
	Diffusion Glass Filter	2B6000040

	Car Charging system	3B9004000
