

DARKBUSTER LED-5(Disposable Version)

- A. Aluminum body designed for providing a heavy duty product.
- B. Skidproof design can help users to hold it well.
- C. CREE High quality LED light provides 250lm in its class
- D. Plastic hook. You can hook the light while you diving without worrying about losing it.
- E. Power switch. There are there modes that you can choose. High, Low and flash mode.

Features

1. Brightest 250 lumens in its class
2. Dual O-ring mechanism
3. Both IP68 and 100M underwater makes it robust enough for any heavy-duty uses

Design Concept	Pursuing best	
----------------	---------------	--

	performance out of all component combination & highest cost performance ratio	
Luminous Efficacy	84 lm/W	<ol style="list-style-type: none"> 1. More light output with more power consumption is not energy saving at all. 2. More power consumption is also very likely to result in heat problem and luminous decay. 3. How many lm/W is the one you must look at instead of watts or lumens individually .
LED Source	CREE, global leading LED manufacturer in USA	<ol style="list-style-type: none"> 1. LED from unknown sources may infringe patent issues. 2. One CREE LED outperforms 50 or even 100 pieces from 2nd and 3rd-tier suppliers.
LED Qty.	1 piece	<ol style="list-style-type: none"> 1. More LED pieces do not mean more light output at all. 2. The reflector is not able to work with multi-LED mechanism and make beam more diffused. Beam distance becomes unsatisfactory as a result.
IP & Depth Rating	<ol style="list-style-type: none"> 1. IP68 means top protection against both solid objects and liquids. 2. 100M underwater sustainable indicates the enclosure is able to stand 	Ready for heavy-duty uses

	pressure of 10kg/cm ²	
Waterproof QC	100% before delivery	To guarantee no flooded lights
Product approvals	CE, FCC, C-TICK, PSE, IP68, ROHS	Making a safe torch to use in hazardous atmospheres and challenging conditions is fundamental to us. That's why BRIGHTSTAR lights are the safest on the market.
Product Liability Insurance	YES	

Specifications

Bulb Type: CREE one-piece LED 5W

Bulb Lifetime: 50,000hrs

Light Output: 250Lm

Battery Type: 3 aaa alkaline

Run Time: Flash: 1000 mins up

Low: 200 mins

High: 170 mins

Dimensions: \varnothing 3.67cm*L13cm

Weight: 130g (excluding battery)

Ingress Protection: IP68

Depth Rating: 300ft/100m

Accessories

	O-ring Set	3B9002001
	Adapter Set (for HID series light)	3B9003011
	Goodman Glove	2B8001000(M) 2B8001001(L)
	Belt Holster	2B8000021
	Helmet Clip for MSA Gallet	2B2032002

	Helmet Clip for PAB	3B3002001
---	---------------------	-----------

Packing

One Gift Box	W170*d100*h40mm	Weight	260g
